

PRINKAL KASHODHAN

MERN STACK DEVELOPER • QA ENGINEER • SOFTWARE TESTING

Vadodara, Gujarat, India | +91-6351996672 | kashodhanprinkal@gmail.com | [GitHub](#) | [LinkedIn](#)

PROFESSIONAL SUMMARY

Full stack MERN developer (React.js, Node.js, Express.js, MongoDB) with hands-on quality assurance experience testing the same class of applications I build — manual, functional, regression, and API testing (Postman, Thunder Client). Comfortable owning a feature end-to-end: building it, then validating authentication, REST APIs, and UI behavior before release. Strong JavaScript foundation supports quick ramp-up on automation tools such as Selenium and Cypress. Currently pursuing M.Tech in Software Engineering; open to Full Stack Developer or QA/Test Engineer roles.

CORE SKILLS

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Redux Toolkit, Zustand

Backend & Database: Node.js, Express.js, REST APIs, MongoDB, Mongoose, MySQL, JWT Authentication, RBAC

QA & Testing: Manual Testing, Functional Testing, Regression Testing, API Testing, Test Case Design & Execution, Bug Reporting & Tracking, UAT Support, Cross-Browser & Responsive Testing, SDLC, STLC

Tools & DevOps: Git, GitHub, GitHub Actions (CI/CD), Docker, Postman, Thunder Client, Render, Vercel, Netlify

Automation Readiness: Strong JS fundamentals; quick learner for Selenium, Cypress, and JS-based automation frameworks

Other: Agile/Scrum Exposure, Requirement Analysis, Root Cause Analysis, Documentation, Attention to Detail

PROFESSIONAL EXPERIENCE

Full Stack Development Intern — Zidio Technology

- Built and maintained features on MERN-stack applications, then performed manual testing, debugging, and issue resolution prior to deployment.
- Developed and tested REST API endpoints using Postman and Thunder Client, validating request/response accuracy, status codes, and authentication flows.
- Collaborated with the development team using Git-based workflows to build features, log bugs, and track and verify fixes.
- Built and verified React.js components for functionality and responsiveness across different states and screen sizes.

WordPress Development Intern — SNT Solution

- Customized and tested website functionality, responsiveness, and UI/UX performance across browsers and devices.
- Identified and reported layout, performance, and cross-browser compatibility issues; performed quality checks prior to publishing.

FEATURED PROJECTS

CodeAI — AI-Powered Developer Platform (MERN Stack)

- Developed an AI-powered productivity platform for developers; implemented authentication, authorization, dashboards, and scalable REST APIs.
- Built reusable React components with state management in Zustand.
- Tested authentication, authorization, and dashboard modules for functional accuracy and security; validated REST APIs and CRUD operations with Postman.

ChatSphere — Real-Time Chat Application (MERN Stack + Socket.io)

- Built a real-time messaging application using Socket.io and MongoDB, with JWT authentication, user profiles, and media sharing via Cloudinary.
- Optimized responsive UI for desktop and mobile experiences.
- Tested real-time messaging, JWT auth flows, and Cloudinary image upload/retrieval; conducted responsive UI testing across devices.

Wanderlust — Travel Booking Platform (MERN Stack)

- Developed a full-stack travel listing and booking platform with authentication, CRUD operations, and third-party API integrations.
- Deployed the application and managed production-ready workflows.

- Tested CRUD operations, authentication flows, and API integrations for functional correctness; verified production builds for stability and regressions.

EDUCATION

M.Tech, Software Engineering — Sigma University, Vadodara | Pursuing

B.E., Computer Engineering — Gujarat Technological University | CGPA: 7.7

Diploma, Computer Engineering — Gujarat Technological University | CGPA: 8.91

CERTIFICATIONS

- Responsive Web Design — freeCodeCamp
- Data Analytics — IBM SkillBuild
- TCS iON Career Edge — Young Professional
- MERN Stack Internship — Zidio Technology
- Introduction to Cloud Computing — Simplilearn
